

# AUGUSTO PEREIRA

## SOFTWARE DEVELOPER

### EXPERIENCE

#### Software Developer | Ostara

Nov 2018 - May 2020, VANCOUVER, BC

- Designed and built Web apps in ASP.NET Core for stock level monitoring and audit.
- Helped the automation department to debug VBA scripts in Siemens and Honeywell systems.
- Build WinForms apps, WPF, with CRUD functionalities to interface with databases.
- Created several console applications and Rest Api apps in C#.NET to run as services to interact with Wrike and Sharepoint api servers.
- Developed interface for a datamax laser label printer.
- Refactored WPF screens making them more efficient and responsive.

### EDUCATION

#### BrainStation | Diploma, Web Development

Sep 2020 - Dec 2020, VANCOUVER - BC

#### BCIT | Associate Certificate - Advanced .NET Development

Jan 2018 - Nov 2019, VANCOUVER, BC

#### BCIT | Associate Certificate, Applied Software Development

Jan 2017 - Mar 2018, VANCOUVER, BC

#### BCIT | Associate Certificate, Applied Web Development

Jan 2016 - Mar 2018, VANCOUVER, BC

#### University Paulista | Bachelors in Business Administration

Jan 2010 - Dec 2013, MANAUS, AM BRAZIL

### PROJECTS

#### BrainStation | Capstone Project

- Built a mock social web app to organize events. The user is able to sign in/signup, create events, post comments and pictures. The app is built with NodeJS, ReactJS and MySql.

### SKILLS

**Databases:** MS-SQL, MySQL

**Programing:** C#, VB, JS, HTML, CSS, Sass

**Frameworks:** .NET Core stack (EF Core code first and db first), .NetFramework, ASP.NET MVC, Windows forms and WPF, Node.JS, React.JS.

**Other technologies:** UX/UI design, Git

### PROFILE

From creating backend apps with the latest frameworks to debugging 10-year-old scripts, facing challenges and delivering innovative solutions with enthusiasm has been my attitude towards coding. After working for a year in the field, I am now pursuing a career in Web Development. I believe I can hit the ground running in a Web Developer role, because I am a quick learner and am always eager to discover new technologies.
