PROJECTS

Automatic Text Summarization

DEC 2020, BRAINSTATION CAPSTONE

Built, in AWS, a text summarizer using advanced NLP and unsupervised methods

Data Analysis Blog

DEC 2020, PERSONAL PROJECT

Created data visualizations and interactive dashboards using Plotly and Bokeh

EXPERIENCE

Investment Advisor Assistant Intern | TD

JUN 2019 - JAN 2020, TORONTO, ON

- Created an Excel-based portfolio management tool that is able to perform 6 different tasks on over 10 thousand rows of client data
- Researched emerging markets and presented findings and recommendations during investment meetings

Graduate Teaching Assistant | Ryerson University

SEP 2019 - DEC 2019, TORONTO, ON

- Presented various calculus concepts in a comprehensible and engaging manner, providing visual aids and analogies
- Held one-on-one sessions for statistics and linear algebra

EDUCATION

Data Science, Diploma | Brainstation

SEP 2020 - DEC 2020, TORONTO, ON

BSc (Honours) Financial Mathematics | Ryerson University

SEP 2015 - JUN 2019, TORONTO, ON

SKILLS

Python, R, SQL, Hadoop, AWS
Git/GitHub, Tableau, Bash,
Excel, VBA, MATLAB

PACKAGES

Pandas, Matplotlib, Seaborn,
Bokeh, Plotly, RShiny, Tidyverse,
NLTK, TensorFlow, Pytorch,
Keras, Scikit Learn

MACHINE LEARNING

NLP, Unsupervised Learning,
Neural Networks, Cluster
Analysis, Recommender Systems,
SVM, Naive Bayes, KNN, Logistic
Regression, Linear Regression

CERTIFICATES

WeCloud Data
SQL for Data Science

PROFILE

The power of data lies in our ability to leverage it. As a data scientist, I want to help my team understand the data as much as I do and allow them to be able to use it to their own advantage.
