PROFILE

Transitioning from a successful career as a financial advisor, I bring a unique perspective and skillset to my role as a software engineer. My analytical mindset, attention to detail and ability to adapt to changing market conditions will enable me to excel in creating innovative solutions and delivering high-quality code.

SKILLS

HTML, CSS, JavaScript, React.js, SASS, Jest, GitHub, Document Object Model, Agile, MySQL, Node.js, Salesforce, eMoney

EXPERIENCE

Financial Advisor | MassMutual

AUG 2016 - FEB 2023, MIAMI, FL

- Provided comprehensive financial planning services to clients, including retirement planning, investment management, tax planning, and estate planning.
- Managed a portfolio of assets valued at \$40 million and maintained an in force insurance book of over \$500 million, demonstrating proficiency in financial management and risk assessment.
- Monitored market conditions to make investment recommendations and adjust portfolios as needed.

Personal Marketing Assistant | Creative Financial Insurance Solutions

OCT 2014 - AUG 2016, MIAMI, FL

- Coordinated and conducted seminars and workshops on financial planning topics for clients and prospects.
- Maintained company website and social media accounts by creating and publishing engaging content to increase brand awareness and drive website traffic.
- Maintained strong relationships with clients, agents, and other stakeholders to support the overall success of the insurance brokerage.
