–

While studying kinesiology in university, I discovered that my interests lied in subjects where I was given creative freedom to problem solve. I am passionate about creating human-centered designs that help to turn problems into solutions. I believe my background in developing exercise programs for various demographics has helped me to understand consumers, while working as a photographer has enhanced by ability to translate ideas into designs.

EXPERIENCE

Revved Up Exercise Supervisor | School of Kinesiology and Health Studies at Queen's University

JANUARY – MAY 2020, KINGSTON, ON

- Improved overall quality of life for participants with disabilities and old aged individuals by ensuring exercise programs met individual needs and goals.
- Fostered a positive environment for up to 20 volunteers and participants by giving feedback on performance, and mentoring inexperienced trainers.

Care Project Coordinator | Freedom Mobile

MAY – AUGUST 2018, TORONTO, ON

- Displayed cross-functional leadership by overseeing project launches in collaboration with marketing and financial teams.
- Eliminated inefficiencies by incorporating improvements to CRM system used by back office agents, enhancing workflow and decreasing call times.
- Demonstrated teaching abilities by ensuring all agents were aware of CRM updates and clarified misunderstandings.

Photographer | MUSE Magazine at Queen's University

SEPTEMBER 2019 – MAY 2020, KINGSTON, ON

- Demonstrated creativity and organization by planning and executing 10 photoshoots, ensuring models, locations, and equipment were aligned.
