SKILLS

HTML5, CSS3, SASS, Javascript, React.js, Node.js, mysql, MongoDB

PROFILE

I am an aspiring Web Developer with a technical Diploma in Information & Communications Technology Management. I enjoy the challenge and reward of solving code related issues. Immigrating to Canada had a major impact on my career, which led me to join the Warehouse/Logistics industry. This quarantine period presented the perfect opportunity for me to transition into web development. I believe my curious nature, love of learning, and ability to work cross-collaboratively will help me succeed in the field of web development.

EXPERIENCE

Warehouse Supervisor | Trendspot Inc.

SEP 2017 - 2019, VANCOUVER, CA
