-

I am transitioning from a background in biological sciences and financial services into the field of data science to contribute to the evolution of data driven decisions that make companies successful. My curiosity combined with my analytical and communication skills have prepared me to thrive in a Data Scientist role.

EXPERIENCE

Registered Client Service Associate | UBS

February 2019 - November 2019

- Provided operational and administrative support for financial advisors and clients
- Managed multiple tasks and projects simultaneously based on time-sensitivity and revenue generation
- Coordinated payments and transfers with other financial institutions on behalf of mutual clients

Financial Services Professional | New York Life

March 2017 - September 2018

- Created value for clients by offering insurance and investment products and services
- Helped other agents provide holistic financial planning for mutual clients

EDUCATION

BrainStation | Diploma Candidate, Data Science

September 2020 - December 2020

ICLP at Taiwan University | Chinese Language Certificate

September 2015 - June 2016

University of California Davis | B.S. Exercise Biology, Minor Chinese

September 2010 - June 2014

SKILLS

SQL, Python, R, Hypothesis Testing, A/B tests, Parametric and non-Parametric tests, Tableau, Matplotlib, Plotly, Bokeh, Seaborn, Tensorflow, Keras, Pytorch, AWS, Hadoop, Spark, Hive

PROJECTS

Music Genre Prediction | Data Scientist

Nov 2020 - Dec 2020, BrainStation

Used machine learning models to predict the genre of a song based on its features
