

# DASOM LEE

## UX DESIGNER

### EXPERIENCE

#### Teacher | York Region DSB, Toronto DSB

SEPT 2015 - PRESENT

- Designing lesson plans and understanding the needs of my learners while assessing students' learning process and achievement.
- Developing relationships through ongoing communication and collaboration with students, colleagues, administration, and care-givers.
- Changing, adapting, and modifying teaching methods and resources from feedback and evaluations for students to achieve success.

#### Researcher | York University

JAN 2014 - JUN 2014, TORONTO, ON

- Facilitated and guided students with the exploration in technology by the process of creating their own video games through GameMaker, a novice game making software.
- Collected data on behaviour patterns, successes, and pain points about students' interaction and process navigating through the software.
- Executed a final presentation day for students to showcase their projects and accomplishments.

### EDUCATION

#### BrainStation | Diploma Candidate, User Experience Design

JUN - SEP 2020, ONTARIO, CA

#### York University | Honours Bachelor of Arts in Psychology

SEP 2010 - APR 2015, TORONTO, ON

#### York University | Bachelor of Education

SEP 2012 - APR 2015, TORONTO, ON

### PROJECTS

#### Eden | UX/UI Designer

An academic project in creating a digital platform for teachers to discover and collect educational resources for students.

#### Coastline | Visual Design Lead

A 4-day design sprint partnered with Ernst & Young for fostering effective communities for 1st year undergraduate students in a remote learning environment.

### PROFILE

A teaching background with a strong ability to empathize, problem solve, and collaborate with people, who is a life-long learner. I have always had a strong interest in the creative department and would love to combine my interest in understanding people with creating products that will bring joy with use.
