

SOBIAH SELVARAJAH

WEB DEVELOPER

EXPERIENCE

Shop Assistant | Cost-U-Less Supermarket

JUN 2014 - APR 2021, Stepney, LON

- Developed and maintained a high level of customer satisfaction by providing a great sales service which increased the number of return customers in the long term.
- Enhanced productivity and efficiency by creating stock and sales report sheets which clearly laid out the daily sales of the business.
- Conducted market research by interacting with customers about popular products, this information was crucial to use as a way of increasing the overall sales.

Mathematics Tutor | Thomas Tallis School | Freelance

MAY 2016 - 2017, Blackheath, LON

- Formed smaller focus groups for 11-18 year olds which targeted topics that they struggled with the most so that they can get higher grades.
- Motivated and encouraged students to achieve their maximum potential by speaking to them outside lesson times about the opportunities available to them beyond the scope of school.
- Provided support to students in a classroom setting.

EDUCATION

BrainStation | Diploma Candidate, Web Development

APR 2021 - JUN 2021, LONDON, UK

University of Greenwich | Bachelors in Mathematics

SEP 2015 - 2019, LONDON, UK

Awarded a Diploma of Higher Education in Mathematics

PROJECTS

The Flowy Poet | Capstone Project

JUN 2021, BRAINSTATION

This is a poetry webpage. As someone who loves to write my own poetry, I wanted to find a way to combine my love for poetry and web development. With this webpage, I want to inspire people to read and write poetry.

Technologies: Git, HTML, BEM, Javascript, React, SASS, Styled Components, Material UI, Node JS, Express JS

SKILLS

HTML, CSS, SASS, Javascript, JSON, AJAX, GitHub, Node.js, React.js, MySQL, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, WebPack, Jest, Enzyme

PROFILE

Having initially pursued a maths degree, my endless drive to constantly learn new things has led me into the tech industry.

The coding work I undertook during my degree studies sparked my curiosity into how technology can have an immense impact on the world just at the tips of our fingers.

Ultimately, this led me to follow my dream by starting my web development journey with BrainStation and I haven't looked back since.
