A junior software developer making a career transition from the business technology management field. Passionate about bridging people and technology. Strong interpersonal, teamwork and communication skills developed through working as a tech consultant. Equipped with sound knowledge of frontend and backend web development, Agile Development process and ability to learn new technologies quickly exemplified by my experience building full-stack web projects throughout a 12-week intensive web development program.

EXPERIENCE

Groundswell Cloud Solutions | Business/Technical Salesforce Consultant - Intern

JAN 2019 - SEP 2019, VANCOUVER, CA

- Configured and presented prototype demos on Salesforce Community features for one of the company's biggest clients.
- Reduced onboarding time for developers by more than 10% by creating technical training documents explaining collaborative programming processes and tools.
- Produced a comprehensive 25-page documentation on an entire Salesforce implementation project after one year past go-live date.

TECHNICAL PROJECTS
