

# Nathalie Barreto

## Software Engineer

### EXPERIENCE

#### E-commerce and Development | Strata Clothing

September 2022 - January 2023, MIAMI, FL

- Designed and developed websites for all clients, showcasing strong front-end development skills. Managed the ecommerce department, overseeing online sales, product listings, inventory, and order fulfillment.

#### Customer Success Manager | Synchroteam

February 2022 - October 2022, MIAMI, FL

- Managed and led the customer success department, overseeing all aspects of client onboarding, support, and issue resolution.
- Initiated the creation of video tutorials to help enhance user experience.
- Analyzed client feedback to identify areas for improvement and implemented new strategies to increase client satisfaction and retention.

#### Medical Scribe | Scrivas

July 2020 - February 2022, MIAMI, FL

- Managed and maintained detailed confidential medical records across a variety of specialties, working under pressure and interacting with physicians and surgeons to ensure accurate and timely documentation for a high volume of patients on a daily basis.

### EDUCATION

#### BrainStation | Diploma, Software Engineering

February 2023 - May 2023, MIAMI, FL

#### Florida International University | Bachelor's in Psychology

January 2017 - December 2021, Miami, FL

### PROJECTS

#### Lead Coder | MoodFlix

March 2023, BrainStation - HACKATHON

- Won first place in a hackathon with Moodflix, a JavaScript and React front-end project that used an API to suggest movies based on user mood. Employed SCSS for styling and Axios for API calls, demonstrating strong development skills and problem-solving abilities.

#### Lead Coder | Ceci Bot

May 2023, BrainStation - INDUSTRY PROJECT

- Collaborated on a multidisciplinary team of developers and designers in building a HR application for UKG using ReactJS and SCSS. By integrating Chat AI and UKG emotion-detecting API, the Ceci Chatbot was developed to improve employee satisfaction and provide feedback to HR managers based on responses.

#### Lead Coder | Ü

May 2023, BrainStation - CAPSTONE

- Developed Ü, an innovative web application that empowers users in their journey of self-discovery and personal development. The full stack application was created by using ReactJS and Express.

### SKILLS

HTML, CSS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest.

### PROFILE

I began my career on a pre-medical track, but I moved away from this seeking balance in my life, and realizing I have a strong facility for understanding how things can be built using technology. I gained this realization when I was exposed to technology in sales and ecommerce roles, where I was consistently given more tasks and responsibility in my work. I am now seeking to develop myself as a software engineering professional and believe that my education at BrainStation has equipped me with the foundational knowledge and skills required to be successful in this field. I look forward to combining my love for being around people while building for the digital world.

### ACCOMPLISHMENTS

Judge - Miami Hackathon

January 2023

Served as a judge on a collaborative panel for Miami Hackweek, evaluating projects based on functionality, creativity, and real-world application for financial reward.
