

Nicholas Mahon

DATA SCIENCE HOPEFUL

EXPERIENCE

Mid Corp Intern | Allianz (AGCS)

MAY 2019 – AUG 2019, TORONTO, ON

- Identified and analyzed Mid Corp losses to determine whether they belonged to specific brokers improving system organization.
- Multitasking main project with supporting colleagues in preparing clean datasets for them to work with, boosting efficiency.

Sales Associate | Sport Chek

DEC 2017 – MAY 2019, OTTAWA, ON

- Successfully connected with several customers on a personal level to drive consistently high sale numbers every shift.
- Regularly assisted in educating customers by working with them on the importance of proper sports apparatus for permanent sales.

Casualty Intern | Allianz (AGCS)

MAY 2016 – AUG 2016, TORONTO, ON

- Successfully worked on power point presentations for the Line of Business Head (LOB Head) of Casualty capturing business performance.
- Created policies based on analysis of loss runs and company submissions assisting underwriter productivity with every policy.

Claims Intern | Allianz (AGCS)

JUNE 2015 – AUG 2015, TORONTO, ON

- Successfully coordinated and completed projects delegated from LOB Heads to create clean spreadsheets for system migration.
- Proficiently developed loss runs for senior claims directors to assist in analysis on profitability allowing for more productivity.

EDUCATION

BrainStation | Diploma Candidate, Data Science

JAN 2019 - APR 2019, TORONTO, ON

University of Ottawa | Engineering with Minor in Business (Incomplete)

SEP 2014 - 2018, OTTAWA, ON

SKILLS

- Python, SQL, C, JAVA, Tableau, R, Bash, GitHub, Microsoft Office
- Matplotlib, Tensorflow, Hadoop
- Microsoft Azure, Anaconda
- French Language Certificate

PROFILE

Data is a masterpiece that not many are willing to interpret. With analytic skills learned in the insurance industry by spending countless hours analyzing claims and losses to create datasets. Combined with collaborative skills learned from years of sports and robotics leading teams to both championships and the world stage. I have the right mindset and skillset to tell the story that datasets present us with on a daily basis.

PROJECTS

Weather App (7/2019 – present):

Making a personal weather app to help get exactly what I want from my weather widgets.

Stormbots (9/2013 – 5/2014):

J. Clarke Richardson Collegiate robotics team manager and head fundraiser.

Nick Mahon

Charismatic, Aspiring engineer, Eager to learn,
World traveler, Raptors Superfan(2)

With strong interpersonal skills and a passion for analytics, working with others to find the true meaning in data is something I'm made for. Years of engineering taught me how to think logically in approaching problems allowing for efficient problem solving. My time in the insurance industry sharpened my analytical skills in addition to gaining a very wide range of domain knowledge. With these attributes I am confident I can make a meaningful contribution to any organisation as a data scientist.

Capstone Project - YouTube Recommender System

Using Long-Short-Term-Memory Neural Network to weigh video corpus and provide recommendations based on video weights.
