PROFILE

We live in exciting times! If you have an idea, however small or big, fun or practical, complicated or easy - you can turn that creative spark into something real. You can learn the technology that makes your dream a reality. Through my various roles in different industries (Health Care, Tech, Oil & Gas) - I have enjoyed the creative process of solving problems and making things work and come alive.

So in my next role, I will create...

SKILLS

Front-end: HTML5, CSS, Javascript, React.js, React Native, DOM APIs, C#

Back-end: Node.js, Express.js, Web APIs, User Authentication, OAuth

Databases: MySQL, Oracle, SQL Server
