PROFILE

I am an experienced designer and multi-faceted creative professional pivoting to the technology sector. I have gained a suite of front and back-end engineering skills and am looking forward to combining my skills for my future career.

SKILLS

HTML, CSS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM), API's, Web API's, User Authentication, OAuth, Heroku, GitHub, Fusion360, Rhino

EXPERIENCE

Producer | BBDO

JAN 2016 - JULY 2022, TORONTO, ON

- Successfully project managed award winning content from bid to delivery using a proven production execution model
- Coordinated weekly stand-up with production team. Ensured agency and production were on schedule and budget
- Executed post production systems still in place at this agency by creating a unique system of footage organization and deliverable accountability from production team

Producer | Great Pacific Media

JAN 2021 - JULY 2021, TORONTO, ON

- Headed production for a full series, 'Styled' for HGTV Canada, from pitch to delivery
- Consistently programmed multiple storylines and executed renovation schedules according to our hero storyboards
- Maintained a mandate of diversity and representation in our programming visibility

Industrial Designer | Numbered Company Inc.

JAN 2014 - JULY 2022, TORONTO, ON

- Independently formed an award winning design studio specializing in retail merchandising, sculpture and lighting structures
- Personally designed custom installations for a number of exciting brands, exceeding sales of over \$100k in first year of operation
- Awarded Starter Company Grant through City Of Toronto in 2017 and 2019

EDUCATION

BrainStation | Diploma, Web Development

JUL 2022 - OCT 2022 -, ONTARIO, CA

Queen's University | BAH English Literature

SEP 2009 - JUN 2010, ONTARIO, CA

Ryerson University | MA, Industrial Design

SEP 2014 - 2015, TORONTO, ON

- Ruth Hancock Scholarship
- OutTV Creator Award.

PROJECTS

'Printr' | September 2022 - BrainStation Capstone Project

- Created and developed a cloud based printing interface using React, MySQL and Google Maps API
- Using existing infrastructure, Printr is developed to be environmentally conscious, nimble and equitable to professionals in all walks of life and work
