PROFILE

I am pivoting into web development in order to grow into a career where I will be constantly creating and debugging.

I'm a proactive communicator and problem-solver with strong organizational skills and attention to detail. Proven capabilities in creating projects with consistency and accuracy make me a strong candidate for a junior role in web development.

GAP YEAR

AUG 2018 - SEP 2019

Traveled independently while financing self through work and volunteering, including:

• Ran social media accounts for a language school, increased engagement and boosted follower counts by 16% in one month.

• Demonstrated organizational skills and initiative in local distribution of products at a brewery.
