

CRISTIAN DUQUE

SOFTWARE ENGINEER

PROJECTS

Software Engineer | Industry Project

MAY 2023 BRAINSTATION/INDUSTRY PROJECT

- Participated in a wonderful opportunity through BrainStation with UKG which involved coming up with a unique idea for their innovative AI technology. Together with my team, I planned an interactive control using their AI algorithm and parameters for HR to mitigate toxicity between communication leaving HR toward other departments and incoming communication that ranged from employee to employee. As a team we used React, Npm, and Express.js in the backend.

Software Engineer | Capstone Project

MAY 2023 BRAINSTATION/CAPSTONE PROJECT

- Built a revolutionary app that helps people with weight loss issues. I think that motivation to transform your wellbeing comes from an inner drive to want something to truly change, therefore my fitness app holds individuals accountable in monetary terms so they can meet their goals!

EXPERIENCE

Builder | High-Definition Inc

APR 2019 - JUNE 2021, HOLLYWOOD, FL

- Fixed homes from previous damages with quality repair tactics and painted rooms and exteriors all in one.
- Demonstrated organization through effectively completing jobs with high efficiency and attention to minute details.
- Guided employees with effective business strategies to increase time efficiency on projects.
- Exceeded existing KPIs by roughly 20% from previous year

Driver | Goldies Trucks

JAN 2014 - MAY 2019, SAN LEANDRO, CA

- Navigated the Bay Area and Central valley efficiently using Google Maps and highway signals.
- Accountable for direct client support with shipments to and from the port.
- Selected best routes to produce great results on mileage and fuel, effectively transporting goods to high name brands.

EDUCATION

BrainStation | Diploma, Software Engineering

FEB 2023 - MAY 2023, MIAMI, FL

SKILLS

HTML, CSS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest

PROFILE

As a recent software engineering bootcamp graduate, I am making a strong career transformation since I realize that life is headed towards a future dominated by technology. I possess a diverse range of skills from project management to successfully performing detailed, painstaking tasks that require extreme focus, to problem solving in the arena of human interactions. I believe my combined skill set makes me a triple threat. I am capable of making tough and precise decisions once I have the correct information, and I believe that my bootcamp training has provided me with the foundational knowledge I need to contribute effectively to an engineering team.
