<https://www.linkedin.com/in/alexander-beaucage/>

## PROFILE

I'm making this career change to data science because I love to learn, solve problems, work with data, and present awesome insights and findings. I'm detail oriented, a problem solver, and a hard worker.

## SKILLS

Python, MySQL, Excel, Tableau, Matplotlib, Seaborn, Hypothesis Testing, Regressions, Numpy, Bash scripting, Git, A-B Testing

## EXPERIENCE

### Lumber Associate | The Home Depot

JUL 2021 - APR 2023, Parry Sound, ON

- Researched over 14 products across the store to recommend to customers increasing sales.
- Demonstrated effective communication by reporting safety issues to managers and constructing solutions.
- Collaborated with five coworkers to pick large orders to increase efficiency.
- Mentored several new coworkers to decrease turnover rate.

## EDUCATION

### BrainStation | Diploma, Data Science

APR 2023 - JUN 2023, Online

### BrainStation | Certificate, Data Analytics

JAN 2023 - MAR 2023, Online

### Parry Sound High School | High School Diploma

SEP 2018 - JUN 2022, Parry Sound, ON

## PROJECTS

### Song Recommendation System

JUN 2023, Final Project / Capstone

- Used the skills I've learned over the course of my boot camp to make a song recommendation system using spotify data.
