## PROFILE

At my core I'm a passionate process optimizer and not afraid of a challenge. In my experience in HR, I rapidly progressed in my career as a result of my high level of responsibility, my ability to learn autonomously and be a self-starter including research systems in order to find more efficient solutions.

I'm looking for ways to continue developing seamless end to end digital solutions and incorporate more creativity, which is why I'm excited to start my career as a UX designer.
