PROFILE

My background in art and photography led me to design school where I had the opportunity to learn and hone my skills in coding projects. I bring patience and curiosity which enables me to adapt to diverse environments and go to great lengths to find solutions to any problem at hand. Committed to excellence, I am eager to contribute my skills to innovative projects and dynamic teams.

SKILLS

React, JavaScript, Node.js, HTML, SCSS, MySQL, GitHub, Web Design, Adobe Creative Suite

EXPERIENCE

Web Content & Inventory Manager | SSC Countertops Ltd

AUG 2015 - AUG 2023, BURNABY, BC

- Implemented a streamlined utilization of the company's website, showcasing real-time inventory updates which enhanced engagement with existing clients and attracted new prospects, ensuring a constant and dynamic flow of website traffic.
- Collaborated with the content creator to achieve a 90% increase in social media following within one year, coordinating photography and video for web and social media content.

Concert Photographer | Beatroute Magazine

FEB 2018 - MAR 2020, VANCOUVER, BC

- Demonstrated punctuality and organizational skills by consistently delivering edited high-quality photographs within 12 hours of concert events, ensuring timely availability for web and print deadlines.

Graphic Designer | Studio Nuvo (VCC)

SEP 2018 - MAY 2019, VANCOUVER, BC

- Conceptualized custom design solutions, including logo redesign to poster creation tailored for small businesses and startups.
- Successfully led a team of six students to victory in a competition to design a custom set of greeting cards for the VCC Marketing Program. Our winning design was chosen to be printed and utilized.

EDUCATION

BrainStation | Diploma, Web/Software Development

SEP 2023 - DEC 2023, VANCOUVER, BC

Vancouver Community College | Diploma, Graphic Design

SEP 2017 - MAY 2019, VANCOUVER, BC

PROJECTS

Front End Web Developer | Shopifyzzz

NOV 2023, SCHOOL HACKATHON - BrainStation

- In this 24-hour hackathon, I collaborated with a diverse team of 3 Web Developers, 2 UX Designers, and 2 Data Engineers. My role as a front-end web developer involved translating intricate UX designs into functional web pages, utilizing React.js and SCSS for a dynamic user interface. Embracing an agile methodology and employing version control with Git, this project not only honed my technical skills but also imparted valuable lessons in team work, problem-solving and effective time management within the constraints of a fast-paced development environment.
