PROFILE

Acting as a bridge between people and complex concepts throughout my career, I strive to leave everything better (aka clearer and friendlier) than I found it.

I am now looking to apply those bridging talents to working chiefly on the data side, ideally on process automation and improvement projects using machine learning, image recognition, and/or NLP to help tech truly help people.

I am seeking a **remote** data science or data analyst role that allows me to master the fundamentals and build those skills into a long-term data science career with your organization.

SKILLS

Python, SQL, R, Hypothesis Testing, Tableau, Matplotlib, Plotly, Tensorflow, Pytorch, AWS, Hadoop, Spark, Hive, Supervised & Unsupervised Learning, NLP, HTML, CSS, JavaScript, Advanced Excel, MS Project, Asana, and Trello

GUIDING PRINCIPLES

Wholeheartedness, Creativity, Coherence, and Continuous Improvement

WORK EXPERIENCE

Business and Events Consultant | Osprey Events

2012 – 2020, NATIONAL

- Provided program and process improvements and change management in small and medium business clients, working as an extension of in-house marketing, HR, and events teams
- Provided event planning, mobile app and website management, tradeshow vendor liaison, and speaker coordination at Aboriginal events across Canada

Business Development & Learning Solutions Specialist | Camosun College

2018 – 2019, VICTORIA, BC

- Developed and grew CE & Contract Training programs via networking, community partnerships, and joint proposal writing
- Led departmental projects including becoming a Pearson VUE test center, CRM selection and Salesforce deployment

Instructor | Langara College

2015 – 2016, VANCOUVER, BC

- Planned and delivered Human Resources, Computer, Change Management, and Organizational Development courses in the full-time business program

Director of Corporate Advisory Services & Events | AHRC

2014, VANCOUVER, BC

- Organized and delivered the largest Aboriginal Recruitment event in 2014; screening over 1,000 applicants and matching them to recruitment partner needs for scheduled, on-site interviews

Manager, Marketing, Communications and Community Relations | ISM Canada

2012 - 2013, SASKATOON, SK

- Project managed new website development; also planned and rolled out two key labour relations communications plans simultaneously
- Promoted from business analyst to senior administrator within six months based on pivotal work on employee engagement survey and corporate change management program

EDUCATION

BrainStation | Diploma, Data Science

2020

University of Saskatchewan | Master of Business Administration

2012

- Consulting in China; created Aboriginal Board Governance Training Program for local First Nation

Athabasca University | Bachelor of General Administrative Studies
