Basketball Player

As a potential Web Developer, I have an immense mental state that would enable me to break through any barrier and wiggle through problems. As a long-time self learner, I am able to pickup new skills and important information, efficiently and effectively in a short amount of time. As a future bootcamp graduate, this itself says a lot about my perseverance to learn. Coming from a Science background, I wish to incorporate my acquired knowledge into certain aspects.

Capstone Project - MambaScore
