Mahidol University | Bachelor in Computer Science, Major in Software Engineering

JUN 2011 - MAY 2015, BANGKOK, THAILAND

PROJECTS

Ava Makeup Artist | Creator, Full-Stack

DEC 2020, BRAINSTATION CAPSTONE PROJECT

Designed and built a website for a professional makeup artist. This website showcases the artist's work and passion. Customers can book appointments online and the owner can log in to accept and arrange the appointments. The responsive design leverages React, SASS and Node to provide a user-friendly interface with any device.

HTML, CSS, JavaScript, React, Node.js, SASS, JSON, PHP, SQL, GitHub, Salesforce, WordPress

PROFILE

I was introduced to the principles of coding at a young age, as both my father and uncle are computer programmers. I am passionate about bringing applications "to life" with tangible value to the people engaging with the application.

I believe my ability to problem solve, think critically, pay attention to detail, and organization skills will serve me well in this field.
