PROFILE

I have an international background, experiencing a multitude of people, places, and cultures. I want to leverage my background in a company that utilizes my unique skillset. I am pursuing a Data Science career to complement my analytical skills. I would like to apply these skills in a Fintech venture.

SKILLS

Python, Pandas, NumPy, R, SQL, Excel, Tableau, Matplotlib, Seaborn, Hypothesis Testing, A/B Testing, Plotly, Bokeh, TensorFlow, AWS, Pytorch, Hadoop, Spark, and Hive

EXPERIENCE

Intern | AXA Advisors
