Python, R, SQL, GitHub, Tableau

PROFILE

With a professional background in Financial Services, I have come to understand how meaningful data is. I am eager to transition into a more data-centric role in which I can use my skills to tell stories and solve problems, both present and future.

EXPERIENCE

Financial Analyst II | FIS GLOBAL

FEB 2020 – JUNE 2021, ORLANDO, FL

- Responsible for product billing operations, reviewing approximately 150 invoices per month, and ensuring all contractually sold and implemented products and services were properly invoiced to clients in a timely and accurate manner.

- Performed quality assurance for invoice and billing data with an understanding of multi-currency implications.

- Curated monthly invoice tracking reports and delivered to 8 business units.

Lending Analyst | FBC Mortgage

SEP 2015 – FEB 2020, ORLANDO, FL

- Awarded 2 company awards for exceptional employees.

- Recognized opportunity for process improvement and built Excel automations reducing invoice & closing statement task time by up to 80%.

- Implemented new processes to keep track of defaulting customers and vendors, resulting in streamlined interested billing process and information dissemination to executives.

- Leveraged Excel to implement target date tracking tool to improve revenue operations and billing efficiency, reducing missed extension fees and increasing revenue by up to $10K monthly.

EDUCATION
