## EXPERIENCE

### Assistant Professor (Teaching Stream) | University of Toronto Scarborough

SEP 2019 - 2022, TORONTO, ON

- Designed and taught nine distinct courses achieving high mean evaluation scores
- Facilitated revitalization of undergraduate student association in role as liaison
- Published innovative research at border between philosophy and cognitive science

## EDUCATION

### BrainStation | Diploma, Data Science

JUN 2023 - SEP 2023, TORONTO, ON

### University of Toronto | PhD in Philosophy

2013 - 2020, TORONTO, ON

- Amilcare Iannucci Graduate Fellowship in the Humanities (Jackman Humanities Institute)
- SSHRC Canada Graduate Scholarship
- Ontario Graduate Scholarship

### University of British Columbia | BA in Philosophy (Minor in Political Science)

2010 - 2012, VANCOUVER, BC

## PROJECTS

### BrainStation Capstone Project: Modeling and Predicting Conspiracy Belief

JUN 2023 - SEP 2023, TORONTO, ON

## SKILLS

Python, SQL, R, Hypothesis Testing, A/B Tests, Tableau, Matplotlib, Plotly, Machine Learning in scikit-learn, Tensorflow, Keras, Pytorch, AWS, Hadoop, Spark

## PROFILE

I am a professor of philosophy and an expert in critical thinking transitioning to a career in data science. As a philosopher specializing in cognitive science, I cultivated a passion for using data to reveal deep insights about challenging questions. I have a strong foundational knowledge of the research process, with technical skills and professional training in data science. I am driven to uncover the story the data is telling and use it to guide important decisions.
