PROFILE

I am a software engineer and full-stack web developer with a proficiency in utilizing Python to analyze datasets across various projects during my University career. This experience has fueled my passion for continuous exploration and learning of new programming languages. My goal is to inspire and empower the community through constructing a more accessible digital environment, aiming to break barriers between users and servers, ultimately fostering inclusivity.

SKILLS

JavaScript, React.js, Node.js, HTML, Cascading Style Sheets (CSS), Responsive Web Design, MySQL Application Programming Interfaces, Relational Databases, Geographic Information Systems, Python, Jira, Figma

EXPERIENCE

Shift Supervisor | Starbucks

JUN 2018 - PRESENT, MILTON, ON

- Managed and trained 15 new partners with various espresso machines, register operations simultaneously fostering customer rapport and improving team's efficiency.
- Implemented meticulous order preparation and construction of a variety of beverages, consistently meeting deadlines for all order requests.
