PROFILE

I'm a UX Designer with a background in Industrial Design and equity studies. I have always pursued work that focuses on people and their needs, and design allows me to leverage my creativity to improve daily life. I think good design is essential for good living and I love working with people who share that sentiment.

EXPERIENCE

Industrial Designer | Fig40 Inc.

MAY 2017 - MAY 2020, TORONTO, ON

- Collaborated with clients, manufacturers, and engineers to bring new products to market
- Created, developed, and presented furniture concepts for clients and key stakeholders
- Lead designer on two projects, taking them from first concepts to product launch

Furniture Designer | COFO Design Inc.

JAN 2018 - JAN 2019, TORONTO, ON

- Studied the residential furniture market to identify trends and opportunities for innovation
- Worked with COFO's in-house team to tailor concepts to their manufacturing capabilities
- Designed and launched a 3-piece residential furniture collection with Kenny Nguyen

Prototyping Lab Technician | Humber College ITAL

SEPT 2017 - APR 2018, TORONTO, ON

- Maintained a prototyping lab of CO2 laser cutters, SLA 3D printers, and a photography studio
- Managed production timelines and client expectations
