PROFILE

With a background in Psychology and over 3 years of research experience, I'm passionate about solving human-centric problems. I enjoy taking ideas from concept to production with an emphasis on empathy and accessibility.

I'm excited to bridge the gap between psychology, design, and technology by creating functional and meaningful user-experiences.

SKILLS

Figma, InVision, Adobe XD, Sketch, SPSS, POP

EXPERIENCE

UX/UI Designer | Empowered Futures

AUG 2022 - PRESENT, TORONTO, ON

- Helping create the Design System for Empowered Futures, an organization that connects mentees with mentors
