—

A UofT Computer Science graduate with a passion for the creative process. I grew up playing with legos, origami and drawing, now freelancing as a photographer. I have always wanted a career that marries my love for technology with my creativity and I truly believe I have found that in full stack web development.

EXPERIENCE

Software Developer Intern | Magnet Forensics

JAN 2018 - DEC 2018, MAY 2019 - AUG 2019, OTTAWA & WATERLOO, CA

- Maintained online dashboard to catch and manage Jenkins automation anomalies using React and C#
- Added "artifact" to display parsed Google Takeout Location History JSON
- Collaborated with 2 other developers to offer GSuite support -- JWT signing, POST requests, etc
- Ported existing prebuild jobs to Jenkins pipelines -- Groovy scripting, dynamic stages, parallelism

EDUCATION

BrainStation | Diploma Candidate, Web Development

JUN - SEP 2020, TORONTO, CA

Set to graduate with a 4.0 GPA

University of Toronto | Bachelor's in Computer Science, Minor in Math, Minor in Business

SEP 2015 - APR 2020, MISSISSAUGA, CA

Honours

SKILLS

React/Redux/Hooks, Javascript, Python, SQL, C#, Java, Groovy/Jenkins

PROJECTS

React Pokedex (<https://github.com/albrtyng/react-pokedex>) | Sole-Contributor

AUG 2020, HACKATHON PROJECT

A modern day Pokedex written in React. Has since become a sandbox to mess around with new web tech. Uses React Hooks, Typescript and axios

RooBot (<https://github.com/nikogrobles/roo-discord-bot>) | Contributor

MAY 2020 - PRESENT, PERSONAL PROJECT

A Discord bot written in Javascript. Ongoing. Offers giphy support and fun embedded commands

Fornite2D | Contributor

JAN 2020 - MAR 2020, SCHOOL PROJECT

A Fornite clone in 2D written in React. Play against other players on a forest map using websockets, pick up guns, ammo, hide behind trees
