SKILLS

HTML, CSS, JavaScript, React, Node.JS, MS Suite, Wordpress Divi, Design, Project Management, Hootsuite, CAD

PROFILE

I am passionate about Web Development because it combines my intellectual and creative approaches to problems. I encountered Web Development while exploring Data Science programming to find I still wanted more design in my coding. I have a strong desire to help people achieve their dreams and I believe I can do that by shining a spotlight on them using web development.

PROJECTS

Beast Inc | UI Designer

JULY 2020, Freelancer |

<https://beastinc.ca/>
