EXPERIENCE

Cleaner | Denise P Cleaning Services

NOV 2022 - PRESENT, FERGUS-ELORA, ON

- Arranged staff and myself to complete the cleans in the time allotted
- Consulted with clients if they felt the cleans were not up to their needs and resolved the issue for the next scheduled clean

Residential Care Worker | Macleod's Too

OCT 2020 - DEC 2021, LOWER BRIGHTON, NB

- Accountable for direct client support and reached clients through uncontrollable physical and verbal outbursts
- Wrote detailed notes about clients day to day, to outline their needs to the next care worker
- Clarified the needs of clients to management and made sure clients changing needs were know and met

Car Detailer | Trius Truck Centre

APR 2019 - MAR 2020, FREDERICTON, NB

- Reduced time to perform a detailed clean of vehicle while sustaining the level of the clean
- Supported mechanics and other staff whenever needed
- Corresponded with rental staff so vehicles were prepped and ready before required

EDUCATION

BrainStation | Diploma, Software Engineering

APR 2023 - JUNE 2023, ONLINE

Centre Wellington District High School |

GRADUATED 2014, FERGUS, ON

- Specialist High Skills Major in Business

PROJECTS

Full Stack Engineer

JUN 2023, BRAINSTATION HACKATHON (MICROSOFT)

- Worked in a combined team consisting of UX Designers, Data Scientists and other Software Engineers to plan and build a full stack application using fluent ui and react with the solution to get people more involved in the use and collection of their data to improve services

SKILLS

HTML, CSS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest, Working with Heights, Smartserve

PROFILE

Languages have always been interesting to me, once I was introduced to coding it was just so fascinating all the different languages and different kinds of applications that they could build. I have always wanted to get into that industry. Even while I was working in other industries I was constantly thinking about how the applications I was using were built. After Brainstation I don't think I could work in any other industry now.
