## WORK EXPERIENCE

### Reach4Help — Product Designer

DEC 2020 - PRESENT

Be fully responsible for the end-to-end process to design an admin dashboard to track volunteers and people needing help.

Conducted the interview with stakeholders to understand the organizations' needs and strategy.

Synthesized insights from research into key functions and metrics for designing the dashboard using **Miro**.

Participate in weekly design review meetings to seek out specific feedback about my design.

## EDUCATION

### Memorisely

JAN 2021 - FEB 2021

Certificate in  
Design System.

### BrainStation

JUL 2020 - SEP 2020

Diploma in  
User Experience Design.

### George Brown College

SEP 2017 - MAY 2020

Advanced Diploma in  
Computer Programmer Analyst.

## DESIGN SPRINT & HACKATHON

### BrainStation x SkipTheDishes

SEP 2020

Collaborated with a team of Data Scientists, Web Developer, & Product Designers to design and build functional digital experiences to help reduce the footprint in Food Delivery.

### BrainStation x EY Design Studio

JUL 2020

Worked as a UX Designer with a team of 4 in a 4-day Design Sprint hosted and judged by EY Design Studio to design and deliver a native iOS app to help first-year students connect with the campus community virtually.
