PROFILE

I am a dedicated professional with a resolute commitment to my career transition into UX design. Through my past experiences, I have honed a unique perspective that sets me apart. My journey reflects a steadfast determination to harness my skills and creativity to create intuitive and user-centric designs, driven by the insights gained from my tenure at Argo AI. My profile showcases a blend of determination and industry exposure, positioning me as a distinctive candidate in the field of UX design.

SKILLS

Wireframing, sketching, and prototyping. Figma, FigJam, Sketch, and Canva. Persona development, usability studies, visual design, user interface design, information architecture, and motion design.
