PROFILE

I have been constantly curious about the inner workings of things since I was a child playing with LEGO. The field of UX allows me to share my curiosity and intuition regarding human-centric design and apply it to real products people use. My love of collaboration and iteration ensures that every project I am a part of is synthesized from multiple viewpoints and united under an empathetic design.

SKILLS

Figma, Invision, POP, Ableton, Logic Pro, Adobe Photoshop

EXPERIENCE

Music Teacher | Arcadia Academy of Music

JUL 2021 - 2022, ONTARIO, CA
