PROFILE

I have vast experience in finance and am studying Software Engineering to aggregate more knowledge for my portfolio.

I am confident that the skills that I have acquired through my Software Engineering diploma will help me evolve my finance career.

SKILLS

HTML, CSS, JavaScript,
React, GitHub

FINANCE SKILLS

Business Valuation, Teaching,
Financial Modeling, Inventory
Management,
Fixed Income Portfolio
Management - Self-taught

ACCOMPLISHMENTS

Wrote an undergraduate research paper at Insper Instituto de Ensino e Pesquisa related to the analysis of exogenous variables affecting movie box-offices in the U.S.

Worked as a Teaching Assistant of Corporate Finance, teaching weekly sessions for up to 150 students while completing Bachelors degree.

EXPERIENCE

Finance Teacher - Self employed

OCT 2010 - CURRENT, MIAMI FL

- Supported more than 2000 students in achieving goals including better understanding of capital markets and financial planning. 95% of students surveyed reported that they had fully achieved their learning goals. Also the students that were trained to excel in financial interviews were able to get a job in the financial market within 3 months.
- Taught private lessons to university students on the following subjects: Corporate Finance, Business Valuation, Management Accounting, Risk Management, Logistics, assisted students in Investment Banking / M&A internship interviews and consulting projects for small and medium size companies.
- I educated women in their 30s, 40s and 50s on how to invest and in 2018 started giving trainings to Safra bank managers about finance and economy.

CFO | Daviso

MAY 2012 - DEC 2021, SÃO PAULO, SP

- Worked closely with Accounting and Fiscal departments to improve various processes.
- Saved an estimated 500K USD annually by renegotiating interest rates, restructuring commission payment policy, reviewing human resources costs and expenses, and reducing bank fees.
- Responsible for conducting the M&A between Daviso and Viveo (publicly traded company) in the first trimester of 2021, the value of the transaction was USD 45 million. The due diligence was done by Ernest & Young.

Finance Intern | Google

AGO 2012 - DEC 2012, SÃO PAULO, SP

- Updated Google's desktop procedures (DTP), via Excel and Word, creating the detailed view of each of the following processes: fixed asset, intercompany cost plus transaction, order to collect, and month end reports.

EDUCATION

BrainStation | Diploma, Software Engineering

FEB 2023 - MAY 2023, MIAMI, FLORIDA

Insper Learning Institution (AACSB-Accredited) | Bachelors in Business, Minor Finance

AUG 2007 - DEC - 2011, SÃO PAULO, SP

- Relevant coursework: Leadership, Corporate Finance, Business valuation, Econometry.
- Honors graduate: Top 5% graduate student.

PROJECTS

Software Engineer | Capstone Project "Can you beat the Market?" | May 2023
Investment simulator where the user can create a stock portfolio and check if they are able to over-perform a market index: <https://github.com/isaacchammah/capstone.git>

Industry Project, May 2023
A plug-in that uses AI to "shield the users words" by translating the journal entry into measurable data without compromising their privacy with a purpose of reducing burnout in the workplace: <https://github.com/Dania-h/UKG-Hackathon.git>
