PROFILE

I am passionate about entering the field of software engineering for its continually evolving nature. Working in highly collaborative, analytical orchestral settings has trained me to be disciplined and given me the ability to rapidly identify patterns and connections. I look forward to applying my logic skills and artistic flair among an innovative tech team to make a positive impact.

SKILLS

HTML, SASS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) API, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest, Figma, Whimsical, Optimal Workshop

EXPERIENCE

Co-Founder and Director | Conservatorio Grassi Urquiza

JAN 2015 - DEC 2020, BUENOS AIRES, ARGENTINA

- Co-founded my own music school, taking it from 0 to 200 students, building every instrument curricula and designing the student experience end-to-end
- Managed the day-to-day operations, a staff of 15+ teachers and oversaw every aspect of the school

Cello Instructor | Conservatorio Manuel De Falla

JAN 2005 - DEC 2019, BUENOS AIRES, ARGENTINA

- Taught hundreds of students (kids and adults) across multiple levels, with 50+ joining professional orchestras
- Leveraged multiple teaching methods to tailor my classes according to each student needs (e.g. Suzuki method)
- Led group of students to perform in different venues

Cellist | Teatro Colón

MAR 2002 - MAR 2003, BUENOS AIRES, ARGENTINA

- Awarded the position of cellist in the Teatro Colón Opera Orchestra (100+ musicians) through a competitive audition process
- Performed with world-class musicians such as Charles Dutoit and Zubin Mehta

EDUCATION

BrainStation | Diploma, Software Engineer, Miami, FL

JUN 2023 - SEP 2023

Coderhouse | Diploma, User Experience Design, BA, Argentina

JAN 2023 - APR 2023

Universidad Nacional de Las Artes | Bachelors in Music, Specialization in Violoncello, BA, Argentina

MAR 2000 - DEC 2010

PROJECTS

Front-end Developer | PlatePal

AUG 2023

- PlatePal is a recipe App that allows the users to search for recipes based on food style or ingredients. Users can also customize and create new recipes. I designed and built the entire app (spanning across front-end and back-end). Technologies used: React, React-router-dom, Express, Sass.
