PROFILE

Since I was young, I have always had 2 passions, people and technology. In my previous roles I focused on the people aspect and spent my career creating meaningful and strong relationships in the tech industry. I am now ready to take the next step and apply myself to learn the technology side.

SKILLS

Development: HTML, JS, CSS, SASS, REACT, NODE.JS, PYTHON, JIRA

Recruiting: LINKEDIN PRO, BULLHORN, ICIMS, STERLING BACKGROUND CHECKS

PROJECTS

Full Stack Engineer | Why Travel Alone
September 2023, Capstone Project

- Planned, designed, created, implemented, and tested all parts of the application.
- Designed and created a database with multiple many-to-many tables to hold mock data.
- Created all endpoints to access and manipulate data from the front end to meet CRUD standards.
- Created and maintained an accurate list of futures for the development timeline of the project.

Full Stack Engineer | Triton Solutions – Winning Team
August 2023, SCHOOL/HACKATHON Sponsored by Microsoft

- As a team created a proof-of-concept application that allowed users to better manage their data privacy by choosing which applications can access that data.
- Created the details pages for the information security of each application profile on the app. That information was pulled from an API and Database created for the project.
- Led debugging and final preparation of the app for submission.

EXPERIENCE

Talent Acquisition Partner | Bonterra
Jun 2021 – Jan 2023, WATERLOO, ON/ REMOTE

- Orchestrated full cycle recruitment efforts on a variety of roles including technical, sales, and support roles.
- Boosted relationships with leaders across the business and leveraged my reputation as an SME to streamline the hiring and interview process leading to a 2-week reduction in time to hire.
- Spearheaded a team tasked with managing a company-wide discord channel regarding the implementation of Workday HRIS, as well as responding to employee questions and maintaining a FAQ list with responses.

Associate Recruiter | Procom Consultants
Dec 2018 - May 2021, KITCHENER, ON

- Managed full-cycle Recruitment for more than 30 roles per month.
- Capitalized on relationships with local developers and technology-oriented meetup groups to create a pipeline of skilled talent leading to increased placements by 20% per month.

EDUCATION

BrainStation | Diploma, Software Engineering
Jun 2023 - Sept 2023, TORONTO, ON

Conestoga College | Bachelor of Business Administration
Sept 2013 - 2018, KITCHENER, ON
