Tola Ogunniyi

HIIT workout instructor, Fast learner, Optimist,Determined, Sociable

I have over 11 years of experience carrying out scientific research and analysis, as well as drawing conclusions from data. I pride myself in having an insatiable appetite for knowledge, and also a fast learner. Examples include teaching myself Volgistics (database software) in record time, and Adobe Photoshop. I am committed to achieving company goals via the process of productive and efficient teamwork.

Capstone Project - E-commerce Recommendation Systems

Use of Machine Learning techniques to provide product recommendations
